

Numbers

Class 2 • Maths • Worksheet (illustrative sample)

Worksheet for Class 2 Maths: Numbers.

Questions

1. Write 487 in expanded form.
2. Write the number that has 6 hundreds, 0 tens and 4 ones.
3. Compare using $>$, $<$ or $=$: 342 ____ 324
4. Compare using $>$, $<$ or $=$: 509 ____ 590
5. Write the smallest 3-digit number.
6. Write the largest 3-digit number.
7. Arrange in increasing order: 231, 132, 321
8. What is the place value of 7 in 379?

Answer Key

1. $400 + 80 + 7$
2. 604
3. $342 > 324$ both have 3 hundreds; compare tens: 4 tens is greater than 2 tens.
4. $509 < 590$ 5 hundreds is equal, but 590 has 9 tens against 0 tens for 509.
5. 100
6. 999
7. 132, 231, 321
8. 70 (7 is in the tens place, so its value is 7×10)
